

ASX and Media Release

Updated Production Guidance for the Full Year to 30 June 2018

Despite Herculean efforts by WPG's management, the Company's mining contractor at Challenger Byrnegut, and Byrnegut's consulting arm Mining Plus, whose personnel have been increasingly embedded in WPG's site management team over the last six months, gold production continues to disappoint.

Production for June is now expected to be approximately 6,000 ounces, well down from the 8,500 ounces forecast in WPG's ASX announcement of 7 June 2018.

Production for the full year to 30 June 2018 is now expected to be approximately 53,000 ounces.

Further Information

For further information please contact WPG's CEO Wayne Rossiter on (02) 9251 1044.

Forward-Looking Statements

This document may include forward-looking statements. Forward-looking statements include but are not limited to statements concerning WPG's planned activities, including but not limited to mining and exploration programs, and other statements that are not historical facts. When used in this document, the words such as "could", "plan", "estimate", "expect", "intend", "may", "potential", "should" and similar expressions are forward-looking statements. In addition, summaries of Exploration Results and estimates of Mineral Resources and Ore Reserves could also be forward looking statements. Although WPG believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements.
